Who Is This Vendor Assessment For?

NelsonHall's Managed Security Services profile on Atos is a comprehensive assessment of Atos' offerings and capabilities designed for:

- Sourcing managers monitoring the capabilities of existing suppliers of managed security services and identifying vendor suitability for security services RFPs

- Vendor marketing, sales, and business managers looking to benchmark themselves against their peers

- Financial analysts and investors specializing in the IT services sector.

Key Findings & Highlights

This NelsonHall vendor assessment analyzes Atos' offerings and capabilities in managed security services.

Atos' cybersecurity practice is largely based on its acquisition of Bull in July 2014. The goals of the acquisition were to strengthen Atos' cloud operations and to build a big data and cybersecurity segment. Following the Bull acquisition, Atos strengthened its cybersecurity business through its partnership with Siemens on big data analytics, cybersecurity, and device connectivity and the acquisitions of Xerox ITO, Unify, and Anthelio Healthcare Solutions.

Scope of the Report

The report provides a comprehensive and objective analysis of Atos' managed security services offerings and capabilities, and market and financial strengths, including:

- Identification of the company's strategy, emphasis, and new developments

- Analysis of the company's strengths, weaknesses, and outlook

- Revenue estimates

- Analysis of the profile of the company's customer base including the company's targeting strategy and examples of current contracts

- Analysis of the company's offerings and key service components

- Analysis of the company's delivery organization including the location of delivery locations.
