Who Is This Vendor Assessment For?

NelsonHall's Transforming Managed Services in Banking Vendor Assessment for Infostretch is a comprehensive assessment of Infostretch's Managed Services in Banking offerings and capabilities designed for:

- Sourcing managers monitoring the capabilities of existing suppliers of managed services processes and identifying vendor suitability for Managed Services RFPs
- Vendor marketing, sales and business managers looking to benchmark themselves against their peers
- Financial analysts and investors specializing in the support services sector.

Key Findings & Highlights

Initially, Infostretch focused on automating software quality processes so that companies could meet the increasing demand for web-based products and services. Since then, they evolved into a digital engineering firm that helps companies with their digital initiatives. Offerings spanned strategy, planning, execution, and end-to-end engineering services. Today they use a portfolio of proprietary frameworks and tools to support the enablement of customized user experiences, as well as open source frameworks.

Infostretch's digital engineering services include: Digital Strategy, Digital Engineering, Data Analytics, Quality Engineering, Cloud Engineering, DevOps (CI/CD), Technology Infrastructure and Creative and UX.

Scope of the Report

The report provides a comprehensive and objective analysis of managed services offerings, capabilities, and market and financial strength, including:

- Identification of the company's strategy, emphases and new developments
- Analysis of the company's strengths, weaknesses and outlook
- Revenue estimates
- Analysis of the profile of the company's customer base including the company's targeting strategy and examples of current contracts
- Analysis of the company's offerings and key service components
- Analysis of the company's delivery organization including the location of delivery locations.
