NelsonHall

10 pages

## Who Is This Vendor Assessment For?

NelsonHall's 'Digital Banking Services: Transforming the Financial Services Industry' Vendor Assessment for Quantiphi is a comprehensive assessment of Quantiphi's banking industry digital services offerings and capabilities designed for:

- Sourcing managers monitoring the capabilities of existing suppliers of digital processes and identifying vendor suitability for digital services RFPs
- Vendor marketing, sales, and business managers looking to benchmark themselves against their peers
- Financial analysts and investors specializing in the support services sector.

## Key Findings & Highlights

Quantiphi began as an IT services vendor focused on delivering AI and data science services to the banking industry. The first engagements delivered AI and ML services to address business challenges at banks. From the beginning, the AI and ML solutions were delivered using cloud infrastructure (both private and public cloud). As the financial industry has accelerated its adoption of cloud-delivered services, Quantiphi's growth has accelerated.

Quantiphi has expanded fastest in the U.S., focusing on mortgage lenders and the trading room operations of asset managers. It has used its cognitive capabilities to ingest and analyze data to support improved operations execution in client onboarding and employee management. Quantiphi partners with a growing ecosystem of digital solution vendors to expand the range of functionality it delivers to clients.

## Scope of the Report

The report provides a comprehensive and objective analysis of digital services offerings, capabilities, and market and financial strength, including:

- Identification of the company's strategy, emphases and new developments
- Analysis of the company's strengths, weaknesses and outlook
