Who Is This Vendor Assessment For?

NelsonHall's Managed Security Services profile on Wipro is a comprehensive assessment of Wipro's offerings and capabilities, designed for:

- Sourcing managers monitoring the capabilities of existing suppliers of managed security services and identifying vendor suitability for security services RFPs
- Vendor marketing, sales, and business managers looking to benchmark themselves against their peers
- Financial analysts and investors specializing in the IT services sector.

Key Findings & Highlights

This NelsonHall vendor assessment analyzes Wipro's offerings and capabilities in managed security services.

Wipro entered the security business in 2000 with Wipro Websecure for application security. Wipro has since expanded its managed security services offerings to cover application security, data security, GRC, security consulting and industrial security.

Scope of the Report

The report provides a comprehensive and objective analysis of Wipro's managed security services offerings and capabilities, and market and financial strengths, including:

- Identification of the company's strategy, emphasis, and new developments
- Analysis of the company's strengths, weaknesses, and outlook
- Revenue estimates
- Analysis of the profile of the company's customer base including the company's targeting strategy and examples of current contracts
- Analysis of the company's offerings and key service components
- Analysis of the company's delivery organization including the location of delivery locations.
